

A sleep-away summer camp experience for young adults with epilepsy and developmental disabilities

Camp Coast

This year, Camp Coast will be held on **June 5-10, 2022** at the Rochester Rotary Sunshine Campus.

Our Young Adult Camp increases self-confidence through recreational and social opportunities; provides five days of respite for families; and develops pre-vocational skills in young adults aged 18+ with epilepsy and I/DD. This is a unique program in NYS.

Medical staff including a neurologist are on-site daily, and trained camp counselors are with our campers 24/7. Tuition is \$750 for the week and includes all meals, lodging, and activities. A deposit of \$25 is due at registration with the balance due by **June 1, 2022**. Twelve fully funded camperships are available for families who qualify for OPWDD Family Support Services (proof of eligibility is required). Need-based scholarships are available on a sliding scale.

Epilepsy Alliance West Central NY, the epilepsy services division of EPI, is dedicated to supporting those impacted by epilepsy by confronting the spectrum of challenges created by seizures.

EAWCNY provides epilepsy education and services to more than 6,000 children and adults across 22 counties in the Finger Lakes, Central and Southern Tier regions of New York State.
